Forecast for Saturday 14 Jan 2023

Weather: Cloudy with periods of rain and hill snow soon clear to give a brief dry and bright spell in the morning. Cloud and snow showers then return becoming heavy and merging into longer periods of rain and hill snow at times from the afternoon. Particularly strong winds will develop across Arran and Kintyre with blizzard conditions resulting over the mountains.

Chance of cloud-free hill tops above 800m: Nil in early rain and snow, 30% through the morning.

Low Cloud and visibility: Extensive cloud will accompany the rain and hill snow with base 600-800m, falling to 500m in rain and snow. Away from this rain band, showers will be accompanied by broken cloud with 600-800m base, lowering in any showers. The visibility will remain good out of the cloud but will fall poor or very poor in rain or snow.

Met Office Aberdeen Meteorologist's View
Stormy conditions developing over Arran with gusts of over 80mph possible later

Forecast for Sunday 15 Jan 2023
Weather: Early cloud and showers clear towards dawn. This leaves a mostly dry day with bright or sunny spells, cloud will however thicken in the west and north as snow showers spread east from the evening.

Maximum wind: North 25-30mph gust 40mph decreasing north or northeast 5-10mph later.

Chance of cloud-free hill tops above 800m: 80%.

Low Cloud and visibility: Much or the day will see patchy cloud with base 700-900m, this cloud becomes extensive with the cloud lowering 400-500m in any showers. The visibility will be good, lowering to poor in any showers and very poor in any snow.

Temperature: **Glens:** Minus 1 Celsius rising plus 5 Celsius.
At 800m: Minus 5 Celsius.
Freezing level: 200m.
